SAIYAM BABBAR

747/14 Gurunanak pura,Rohtak • +91 9671409376 • saiyam.babbar.5@gmail.com

SUMMARY

Software Engineering graduate with a solid grasp of software design, development, currently pursuing MCA to deepen expertise. Eager to apply my broad educational background, coupled with strong analytical, technical, and programming skills, to excel as a dynamic software engineer. Committed to continuous skill development and poised to contribute to innovative projects and solutions

PROJECTS

Study Notion-MERN
Crafted a comprehensive MERN project for course sales with authentication and authorization functionalities, ensuring secure user access. Seamlessly integrated user authentication to manage user registration, login, and logout processes. Implemented authorization controls to regulate user privileges and access levels

WanderLust

Developed a hotel booking platform using EJS, MongoDB, Express.js, and Node.js. Enabled users to browse, search, and book accommodations seamlessly. Integrated MongoDB for efficient data storage and retrieval, providing a reliable booking experience

Simon Says Game

Created an engaging game using JavaScript, offering interactive gameplay experiences. Leveraged JavaScript's versatility to implement game mechanics, user interactions, and visual elements. Designed a captivating gaming environment with JavaScript, providing entertainment and challenges for players.

Weather-app
Developed a weather application using JavaScript, integrating API calls to retrieve real-time weather data. Utilized JavaScript to dynamically update and display weather information, providing users with accurate forecasts.

EDUCATION

Master of Computer Applications   **Aug 2023 - Present**
